Dear Mario,

Visiting Research Student

I am writing to confirm that we are offering you a place as a Visiting Research Student in the School of Computer Science. You will be working with Felipe Orihuela-Espina as your supervisor.

We appreciate your expertise in your research area and we expect that during your visit here you will carry out your independent research following your research plan. You will also be strongly encouraged to participate in departmental research activities such as seminars and workshops. I am confident that the research you will be undertaking will make a valuable contribution to research in the field of computer science.

No degree qualification will be awarded on completion of your time with us as a Visiting Research Student; your degree education provider is your home institution – National Institute of Astrophysics, Optics and Electronics.

I can confirm that you will not be charged a fee/bench fee for your research with us.

Your main point of contact for administrative matters going forward will be: Sarah Brookes, PGR Administrator, School of Computer Science. Her email address is computersciencepgradmin@contacts.bham.ac.uk; phone number 0121 414 2653. When you arrive at the University, you should report to Sarah in the Education Support Office at the School of Computer Science to receive School PGR information. You are also encouraged to attend a University induction for postgraduate researchers to find out more about the resources available to you at the University. Dates for upcoming induction events can be found at: <https://intranet.birmingham.ac.uk/as/studentservices/graduateschool/newpgr/index.aspx>.

We look forward to welcoming you to the School of Computer Science. Please do get in touch if you have any queries about preparing you for studies here.

Yours sincerely,

C.Shaw
